- Outdoor Adventure
- The great race

## Senior Students Leadership Programmes

Leadership begins with understanding yourself – so give the youth an opportunity to develop these life skills through experimental learning and team challenges that provide stretch, and a huge lot of laughter and fun. Students understand their leadership, personality traits and style of leading.

## Looking to develop your teaching team? WE GET RESULTS and WE DEVELOP PEOPLE!

To do this, we have a unique training process which addresses the reasons why certain behaviours may be blocking productive workflow. This starts with identifying the behaviour of individuals in your team to gain insight into why they operate like they do and how this impacts on their work and relationships in the workplace. Imagine what your work place would look like with a team that celebrates diversity, decreased conflict, increased interdependency, and increased productivity. If these are the results you want for your business, please get in touch with us and we will create a carefully designed package.

## Why should I choose to partner with Action Stations?

Our professional team are trained primary and secondary teachers and/or trained outdoor educators; they hold current first aid certificates and their criminal history is vetted. The team at Action Stations understand through first hand experience how much time and energy goes into creating a successful experience. Through our programmes that utilise whole body learning, our Action Stations leaders share their knowledge to captivate children's interest in the outdoors with the aim of developing lifetime connections, respect and responsibilities for our environment.

## Hearing what our clients say about us will carry more weight with you than us bragging about ourselves.

**Upper Harbour Primary 2009, Simon Shore**

We had an awesome time. The instructors were fantastic, enthusiastic, knowledgeable, skilled and flexible. Thank you!

**Mataroa School, Taihape Fiona Dwyer, (Principal) 2008**

Our camp was absolutely fantastic. We wouldn't change a thing! Food was well organised and kids loved it!!

**Belmont Primary 2007, Bruce Cunningham - Principal**

Once again, fantastic organisation, instructors, health and safety requirements – this is an excellent way to run camps. Thanks!
